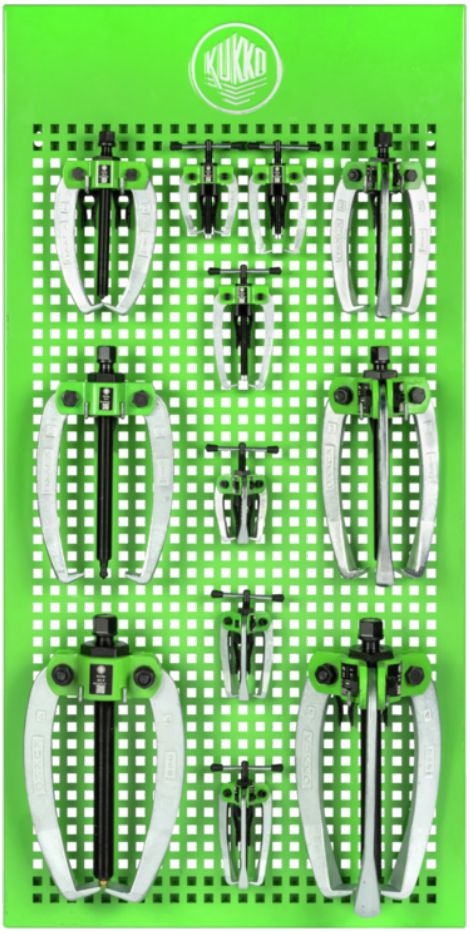
WT-43-44-45/12 Puller assortment, series 43/44/45



DESCRIPTION

The puller range is a wall panel equipped with matching tools for application and storage in workshops and industry. The range includes a total of 12 handy pullers with force-amplifying and self-centering jaws for universal use. Manual tightening of the spindle guarantees self-centering of the jaws (Autogrip Technology).

APPLICATION AREA

For application and storage in workshops and industry

BENEFIT

- Assembly based on years of experience for application in various industries
- Central availability of the products for every employee
- Through the storage on the wall board, the completeness of the range is visible at a glance.
