224-678 Tool cabinet with puller set 30-piece

DESCRIPTION

The equipped 30-piece tool cabinet 224-678 made of sturdy solid sheet steel is used for the safe and organized storage of tools. The tool cabinet includes various Pullers and pulling devices, an internal extractor with sliding hammer, two 3-jaw pullers, as well as different thread adapters. This assortment is suitable for external extraction, internal extraction, as well as separation extraction. The perforated grid on the back panel offers ample space for mounting tool holders. The tool cabinet features lockable doors with a cylinder lock and a maximum load capacity of 50 kg. The high-quality steel cabinets can be flexibly integrated into a wide variety of work environments and thus adapt to individual requirements.

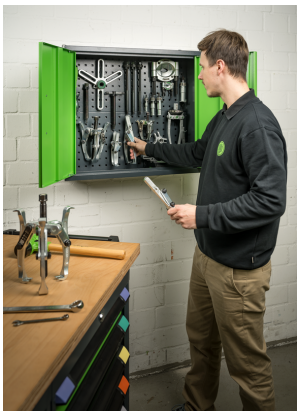

APPLICATION AREA

For the safe and clear storage of tools

BENEFIT

- Safe and clear storage in the lockable tool cabinet
- Application-oriented configuration for universal pulling
