K-2030-10-S-T 13-piece universal puller set (2-jaw and 3-jaw) with extremely narrow puller jaws

DETAIL IMAGE

DESCRIPTION

The 13-piece universal puller set with extremely narrow jaws of series 2030 is used for 2-jaw and 3-jaw pulling of gearbox gears, bearings, pinions, synchronizers, etc., for extremely tight and poorly accessible intermediate spaces in crafts, industry, and workshops. The series 2030 impresses with its diverse combination options. The kit allows for the assembly of 8 different variants by combining jaws and extensions.

APPLICATION AREA

For removing transmission gears, bearings, sprockets, synchronizers, etc. for extremely tight and hard-to-reach gaps in crafts, industry, and workshops.

BENEFIT

- Application-oriented assembly for universal use
- Depending on the existing extraction situation, it can be easily adjusted and configured for a variety of applications.
- Through 2-jaw or 3-jaw design, one is always flexible in use.
- Extensions allow the removal of deeply seated components.

MASTER DATA

GTIN [GTIN]	4021176852022
Country of origin	DE
Material	Tool steel
Series	K-2030-10-S-T
Gross weight [kg]	8,805 kg
Package contents	1 set
Packaging Act	PAPPE PAP 21
Worldwide sales capability	Yes (REACH, RoHS, POP, PROP65, TSCA)

SPARE PARTS

- 1-194-E_1 extremely narrow puller hook (single)
- 1-254-E_1 extremely narrow puller hook (single)
- 20-10-S-T_2-jaw universal puller with extremely narrow puller jaws
- 30-10-T_Crossbar
