660-614 Fall protection for Puller, ⌀ 19 mm diameter

DESCRIPTION

The fall protection devices of the series 660 are used to secure the puller and prevent falls during external extraction in crafts, industry, and workshops. The carabiner hook is capable of attaching the puller to a designated fixing point, and the fixing ring prevents falling.

APPLICATION AREA

To secure the puller and prevent falls during external extraction in craft, industry, and workshop.

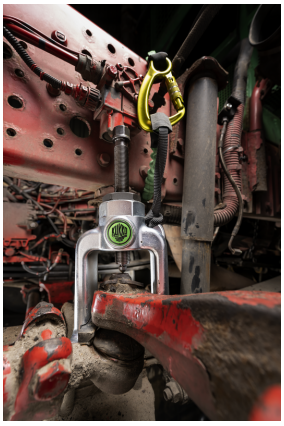

BENEFIT

- The elastic pull line provides enough space to work and stops the puller from falling.
- The tool is continuously secured during the pulling process.
- Flexible use thanks to variable mounting options

OPERATION

- Use carabiners to attach pullers
- Enclose the spindle head with the retaining ring
