K-2030-10+ 13-piece universal puller set (2-jaw and 3-jaw) with quick-adjustable jaws

DETAIL IMAGE

DESCRIPTION

The 13-piece universal puller set with quickly adjustable jaws of the 2030 series is used for 2-jaw and 3-jaw pulling of bearings, gears, discs, etc. in crafts, industry, and workshops. The 2030 series impresses with its versatile combination options. The set allows for the assembly of 8 different variants through the combination of jaws and extensions.

APPLICATION AREA

To pull bearings, gears, discs, etc. in crafts, industry, and workshops.

BENEFIT

- Application-oriented assembly for universal use
- By storing it in the box, the completeness of the set can be easily overviewed.
- Depending on the given pull-off situation, easily adjustable and configurable for a variety of applications.
- With 2-jaw or 3-jaw, you are always flexible in use.
- Extensions allow the removal of deeply seated components.

OPERATION

- Place the puller jaws from the outside onto the part to be removed
- Slide the jaws under the component
- Use a wrench to secure the jaws
- Manually pull the spindle to fix it under pressure
- Activate the hexagon on the spindle head with a ratchet or a ring spanner until the component is released

MASTER DATA

GTIN [GTIN]	4021176001697
