69-C Ball bearing puller set "Universal" for large bearings Ø

DESCRIPTION

The 16-piece ball bearing puller set 69-C is used for extracting ball bearings of all types that are mounted in a casing and/or on a shaft, in crafts, industry, and workshops. Although the affected ball bearing cannot be reused during this process, the application ensures safety and the integrity of the associated casing or shaft while requiring minimal work effort. The 69 series impresses with its variability; depending on the required ball bearing diameter, three different sets are available, allowing for ideal and customized use.

APPLICATION AREA

For removing ball bearings of all types that are housed and/or sit on a shaft, in craft, industry, and workshop.

BENEFIT

- Versatile application without damaging the spindle
- Application-oriented compilation for universal use
- Quick and secure selection by labeling the storage adapters
- By storing it in the box, the completeness of the set can be easily overviewed.

OPERATION

- Drill out the ball cage of the damaged ball bearing; shavings may occur.
- Insert ball segments corresponding to the bearing into the pull piece and secure them by turning them 90°.
- Screw the pull bolt into the pull piece and attach it to the crossbar of the puller.
- Tighten the pressure spindle of the puller against the shaft/casing to safely pull off the ball bearing.

MASTER DATA

GTIN [GTIN]	4021176781544
Country of origin	DE
Material	Tool steel
Series	69
Gross weight [kg]	11 kg
Package contents	1 set
Packaging Act	PAPPE PAP 21
Worldwide sales capability	Yes (REACH, RoHS, POP, PROP65, TSCA)

SPARE PARTS

- 621300_Mechanical pressure spindle
- 69-C-T_Crossbar
- 69-C10_2 bearing adapter (pair)
- 69-C11_2 adapter (pair)
- 69-C12_2 adapter (pair)
- 69-C7_2 adapter (pair)
- 69-C8_2 adapter (pair)
- 69-C9_2 Lageradapter (Pair)
- 818-250_Pull Pin Extension
- 818-279_side screw
